Difference between Navigator and CACs:
http://cciio.coms.gov/programs/exchanges/assistance.html

- **Navigators** have a vital role in helping consumers prepare electronic and paper applications to establish eligibility and enroll in coverage through the Marketplaces and potentially qualify for an insurance affordability program. They also provide outreach and education to raise awareness about the Marketplace, and refer consumers to health insurance ombudsman and consumer assistance programs when necessary.

- The Federally-facilitated Marketplace will designate organizations to **certify application counselors** who perform many of the same functions as Navigators and non-Navigator assistance personnel—including educating consumers and helping them complete an application for coverage. These groups might include community health centers or other health care providers, hospitals, or social service agencies.

There is no cost or fee for services provided by the CACs or Navigators in Montgomery County.
