GRANTS

Lead Physician Faculty – Dayton Street Medicine 2025-2027

OneOhio opioid settlement Grant total \$186,080 to support the development and implementation of a street medicine approach to primary care needs for unhoused persons in East Dayton. A community collaboration approach was used to meet patient needs via whole person assessment. Clinical services include the education of Boonshoft School of Medicine medical students in assessment, clinical assessment and education.

Principal Investigator - Evidence-Based Approach to Opioid Use Disorder Screening, Treatment, and Provider Education in the Hospital Setting 2025-2027

OneOhio opioid settlement Grant total \$564,179 to address acute care processes in Premier Health Hospitals for persons with substance use and addiction. Primary interventions include training and implementation of substance use navigators (Peer support) in clinical setting to work with physicians and providers in assessment, treatment and transition of care regarding alcohol and substance use impacting their care.

Principal Investigator- Montgomery County Direct Opioid Settlement Funding. 2024-2025

Grant total \$198,000 to support expansion of Promise to Hope services and healthcare system knowledge and processes to optimize care of opioid impacted pregnancies in Montgomery County Ohio. Specifically, funds support peer support navigator, Addiction Fellow, Program Needs and an interdisciplinary conference to provide education on early diagnosis, referral processes, community support and evidence based medical care for the dyad.

Principal Investigator – ADAMHS SOS 3.0 grant. Ohio funding for Addiction and Mental

Health services to support the Addiction Medicine Fellowship at Wright State. 2024-25 and ongoing annualized. Total amount to date \$44,017

Principal Investigator- Substance Abuse and Mental Health Services Administration (SAHMSA) Grant. “Wright OUTT” FAIN# H79TI085526. 2022-2025

SAHMSA grant total of \$735,000 federal dollars through Wright State University to support the education of undergraduate, graduate and advanced practice providers in substance use disorders.

Specifically, this grant funds creation of curricula and clinical experiences to enhance training in the local region in treating substance use disorders.

Principal Investigator- Health Resources and Services Administration Grant “Primary Care Training and Enhancement- Community Prevention and Maternal Health” 2021-22 renewable until 2026-27.

HRSA grant of total 2.1 million federal dollars through Kettering Health to support the primary care education in Family Medicine residency physicians for high quality, competent maternity care specifically in rural areas and with patients with co morbid substance use disorders. At 20% FTE as the Principal Investigator, I am responsible for the oversight, monitoring, and continued funding for the duration of the grant.

Faculty – PARTNER : Health Resources and Services Administration Grant “Primary Care Training and Enhancement- Residency Training in Mental and Behavioral Health (PCTE-RTMB” 2022 renewable until 2027

HRSA grant to support WSU Family Medicine residency education in mental and behavioral health. At 10% FTE, my role is to provide and coordinate substance use education as part of the overall curriculum.
