

Formaldehyde Exposure (Approved by FCC on April 22, 2020)

Personal Protective Equipment (PPE) Checklist & Attestation for Pregnant Students

Pregnant and breastfeeding students should obtain the following personal protective equipment (PPE) before they begin any curricular activities within the anatomy lab:

1. Respiratory mask with cartridges (specified for organic solvents and fit-tested)
2. Nitrile disposable gloves
3. Forearm guards (shields)
4. Additional PPE such as eye wear, close-toed shoes, etc.

Student Initials for Obtaining PPE and Participating in the Gross Anatomy Lab

- _____ 1. I am responsible for the purchase of all PPE listed above including replacement of respiratory cartridges, gloves, and forearm guards.
- _____ 2. I am responsible for the cost of the initial fit-testing the respiratory mask as well as any subsequent fit-tests that might be done.
- _____ 3. I am responsible for the maintenance and cleaning of the respiratory mask as well as cartridge replacement in accordance with the manufacturer's instructions provided with the mask and cartridges.
- _____ 4. I am responsible for having and wearing ALL PPE during ALL times that I am in the gross anatomy laboratory. If I do not have or am not wearing the appropriate PPE, faculty or laboratory staff will ask me to leave the lab. In this case, no credit for laboratory attendance, quizzes, etc. will be given to me for that session.
- _____ 5. I am responsible for storing all PPE in a laboratory locker.

Student Initials Indicating Request to Take Gross Anatomy at an Alternate Time

- _____ 1. I am electing to take the required gross anatomy course at an alternate time and understand that it is my responsibility to complete the curricular requirement at a time designated by the anatomy faculty.

I have read, understand, and agree to statements listed above.
