NINTH ANNUAL
VISITING PROFESSORSHIP IN PATHOLOGY

WEDNESDAY, JUNE 2, 2021

SHELLEY HONNOLD,
DVM, PH.D., DIPL., ACVP

VETERINARY ANATOMIC RESEARCH PATHOLOGIST

EDUCATION AND TRAINING
Dr. Shelley Honnold graduated from Purdue University School of Veterinary Medicine in 1998. She then completed a residency in veterinary anatomic pathology at the Armed Forces Institute of Pathology (2006) and a Ph.D. in comparative and molecular pathology at the Uniformed Services University of Health Sciences. Dr. Honnold’s vital role in the military’s veterinary pathology, diagnostic, and research programs spanned her 20-year career in the military.

SCHOLARSHIP & ACCOMPLISHMENTS
Dr. Honnold has authored and co-authored numerous journal articles and book chapters on various emerging infectious diseases. She is a member of the Army Medical Department Regiment’s Order of Military Medical Merit, granted distinguished service. She has also received the Army Surgeon General’s “A” Proficiency Designator for Pathology, the Army Medical Department’s highest recognition for professional excellence.

MAJOR AREAS OF RESEARCH
• Multidisciplinary biodefense
• Pathogenesis of high-threat viral and bacterial agents
• Vaccine and therapeutic development

INVESTIGATING EMERGING VIRAL PATHOGENS—PAST AND PRESENT
3:30 p.m.
Wright State University
NEC Auditorium, 101 NEC

BENCH TO BEDSIDE: THE POWER OF ONE HEALTH
7:30 p.m.
Kohler Catering—Kohler Hall
4572 Presidential Way, Kettering, OH

Objective:
Understand how One Health impacts research decisions in clinical trials and beyond.

registration:
Online registration is required. Physical attendance is limited to accommodate COVID-19 precautions.
