

## Fetal Alcohol Spectrum Disorders: The Facts, the Misconceptions, and the Community

Wednesday, February 6, 2013

3:30-4:30 PM

Atlantis Room, Student Union

Wright State University

3640 Colonel Glenn Highway, Dayton Ohio 45435

### Sara Paton, Ph.D.

Associate Professor, Department of Community Health;  
Epidemiologist, Public Health-Dayton Montgomery County

Did you know that alcohol can affect a baby at any time during pregnancy? Did you know that FASD is highly underdiagnosed and misdiagnosed in individuals?

This presentation will address:

- How alcohol affects a developing baby's brain and body
- FASD prevention
- Why FASD is a community issue

**Target Audience:** Health educators, health professionals, students, interested community members

**Registration:** Free, however **space is limited**. Call Pam Mondini, (937) 258-5555 or email [pam.mondini@wright.edu](mailto:pam.mondini@wright.edu) to reserve a seat.

*Public Health Grand Rounds is presented by the Master of Public Health Program, Center for Global Health, Boonshoft School of Medicine, Wright State University, to inform health professionals about public health topics related to prevention and workforce development.*
