

### “Infant Feeding in Emergencies”

Tuesday, March 13, 2012

8:30-9:30 AM

Miami Valley Hospital Berry Center

Bieser Auditorium, Dayton, Ohio

Linda J. Smith, MPH, FACCE, IBCLC, FILCA  
Bright Future Lactation Resource Centre, Ltd.

Disasters that occur in nearly every country and region of the world are especially devastating for women, infants and young children. Infants and young children are particularly vulnerable to inappropriate and inadequate nutrition in emergency situations. The politics of infant feeding further complicate disaster planning and management.

#### Learning Objectives:

- Explain the importance of breastfeeding and the use of human milk in emergency situations.
- Explain core clinical practices that support breastfeeding.
- Describe practices that undermine breastfeeding.
- Describe policies that protect infant health in emergencies.

Target Audience: Physicians, social workers, nurses, public health professionals

Registration: Free, RSVP preferred, but not required.
